# Virtual HSEQ Training

FOR THE LIQUID BULK AND CHEMICAL INDUSTRY

01

### **SESSION 1**

Implement and improve HSEQ culture and safety management systems.

### **ASSIGNMENT**

Crisis handling exercise to test what you have learned, and get ready for session 2.

### **SESSION 2**

Set up your crisis response and prepare for when the worse happens.

### **CERTIFICATE**

Congratulations! You can download your certificate and apply what you have learned.

**A scalable playbook to  
boost careers and  
safety performance.**

02

# Sharing valuable knowledge

I learned all of this the hard way over more than 20 years in the industry, but the beautiful part for you is that you don't need to spend so much time, money, and effort and can learn it all now by simply following my virtual HSEQ course.

**RUDI STALMANS**

Course Trainer &  
Managing Director at ener8

03

# Session 1

3 hours live online training

## SUPPLY CHAIN SUSTAINABILITY

Review why managing suppliers, site operations, distribution, and customers have become key in creating a sustainable business.

## HSEQ CULTURE

Effective risk management depends partly on the behavior of individuals in an organization. Learn how to develop and improve a company's safety culture.

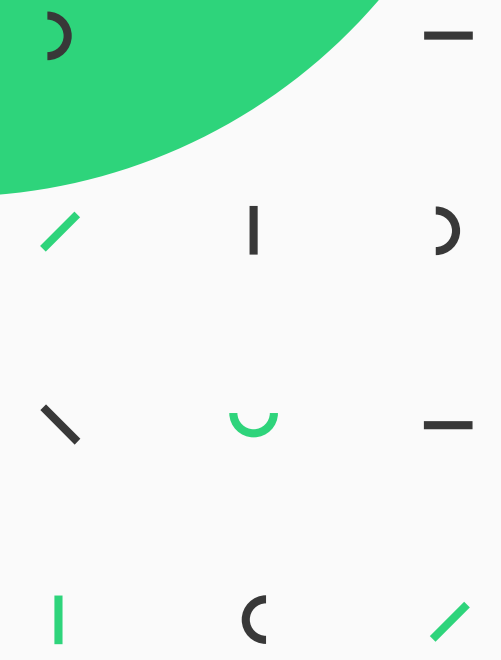

## SAFETY MANAGEMENT SYSTEMS

Acquire the skills to create and implement step-change improvements in safety without large-scale disasters to drive them.

## CRISIS DYNAMICS

Every organization is vulnerable to crises. Understand the dynamics of a crisis so you can improve your preparedness.

04

# Session 2

3 hours live online training

## CRISIS RESPONSE

Find out how to implement a robust emergency response capability for a chemical and hazardous goods supply chain.

## CRISIS COMMUNICATION

Learn the basics of how to communicate effectively during a crisis and increase trust with all stakeholders.

## CONTINGENCY PLANNING

It is important to develop responses in advance for various situations that might impact business. Increase knowledge on how to draw up a contingency plan.

## COMMITMENT TO RESPONSIBLE CARE

Drive continuous improvement in safe chemicals management and achieve excellence in HSEQ.

05

# Assignment

estimated workload of 3 hours to test yourself - crisis handling tabletop

## CRISIS HANDLING EXERCISE

This tabletop-style crisis handling exercise is to test what you have learned in session 1 and to prepare yourself for session 2. Your estimated workload is around 3 hours.

## CRISIS SCENARIO REVIEW

Review and describe a crisis scenario involving hazardous goods.

## BRAINSTORM

Brainstorm about how to (1) prepare & protect, (2) respond, (3) recover, and (4) mitigate.

## ANALYZE

Review strengths and weaknesses and define an action plan.

06

# Review from the industry

In working with managers in the oil & chemical industry, one of the major issues they're struggling with is finding good courses that offer real value and meet their learning goals. Our petrochemical supply chain course and HSEQ training solve this problem.

## GREG EMMENIS

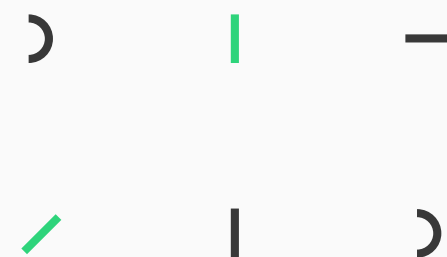

Publisher, Storage Terminals Magazine & Tank News International

We found Rudi's industry knowledge to be both insightful & educational to our readers, so much so that we have asked Rudi to become a regular contributor to both our magazines.

## GERARD DELEENS

Former Group General Representative in China & President Chemical Branch for Greater China at Total SA

Rudi has a very wide scope of expertise from supply chain and shipping, to safety and quality management. Rudi has been a key element of the success of our operation.

# How it works

## STEP 1

Book your training and schedule your sessions with Rudi.

## STEP 2

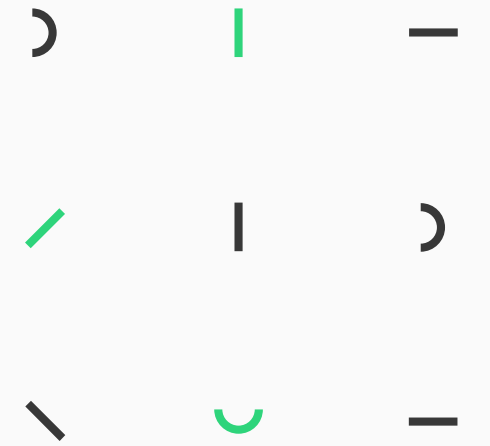

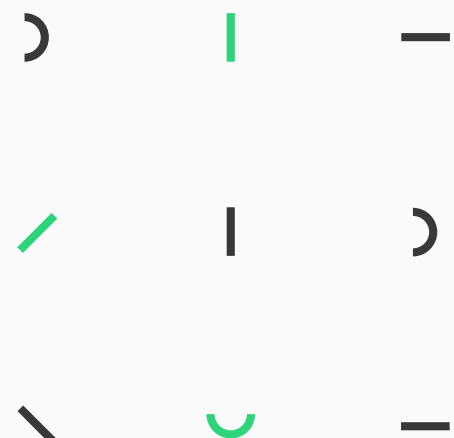

Set up your virtual classroom and start your training. Units come with an online slide deck, resources, and quizzes.

## STEP 3

Download your certificate.

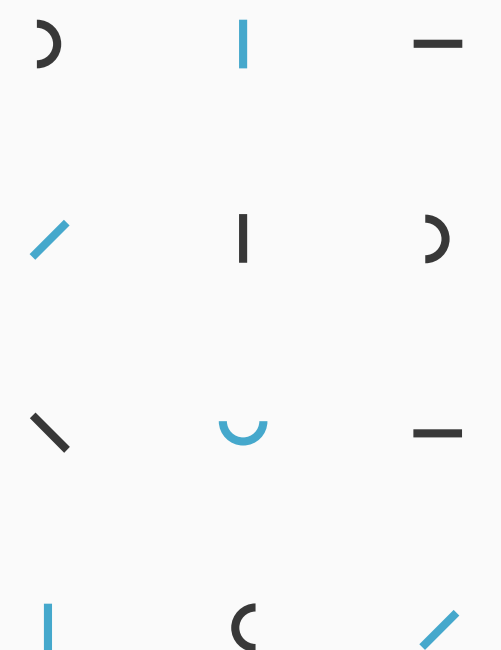

A minimum pass mark of 80% is required!

08

# Course overview

HSEQ TRAINING

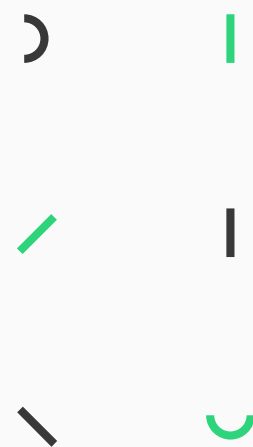

Module 1	Building HSEQ Excellence
Unit 1	Getting started
Unit 2	Supply chain sustainability
Unit 3	HSEQ culture
Unit 4	Safety management systems
Unit 5	Crisis dynamics
Unit 6	Crisis handling - tabletop exercise
Unit 7	Crisis response
Unit 8	Crisis communication
Unit 9	Contingency planning
Unit 10	Commitment to Responsible Care
Unit 11	Evaluation and certificate download
